February 25, 2008

Dear Chris,

We could not be more delighted with everything you did for us when we purchased our new home in St. John's - it was way beyond the call, from dropping whatever you were doing to take photos of the house for our insurance agent to carrying out the final inspection for us because we were out of town.

Your insight into knowing exactly what we wanted is a tribute to your ability to understand your clients' needs.

It is to your diligence, doggedness even and your comprehensive knowledge of the real estate market in St. John's that we owe our ownership of the exactly right house for us. And in a winter when very few properties of the sort we wanted were on the market.

Anyone using O'Dea Realty can count on professionalism and great care. We will always be indebted to you.

Yours sincerely,

Peggy & John Fisher
